## RELATIONS STRAINED TO A VERY SERIOUS DEGREE

By Associated Press.

Washington, D. C., October 24.—Developments of a few hours today in the relations between the United States and Mexico, emphasizes the gravity of affairs more ominously than at any time since President Wilson's administration began. Absolute silence was the order at official headquarters. The release of the Ward steamship, Morro Castle, after pre-emptory demands by the United States terminated a delicate situation. Orders were all prepared to the commanders of the American warships lying off Vera Cruz to insist upon her release.

A statement was in preparation today by Secretary Bryan and Counselor John Bassett Moore, which Secretary Bryan submitted to the President for approval. No intimation as to its contents was revealed, but there was every reason to believe that before many hours a notice by the United States that it will not brook European interference in Mexico by the warships dispatched to Mexican waters by the various foreign governments would be proclaimed. It is understood also that the United States by that same statement will reiterate the American policy that only governments founded on constitutional law and order will be recognized on the Western Hemisphere. The situation had assumed such aspects that it was considered possible that President Wilson might cancel his trip to Mobile, Ala. The gravity of the situation, it was apparent, would be increased by General Felix Diaz taking refuge in the American Consulate at Vera Cruz. The possibilities that the Huerta authorities might demand his release and provoke another emergency was fully realized. Although in International Law the American Consulate has not extra-territoriality rights, it was pointed out here that, morally, the Mexican authorities would have no right to invade the American precincts to arrest Diaz. Nine battleships of the Atlantic fleet sail tomorrow from Hampton Roads for their Mediterranean cruise, according to the plans. They will be in constant communication with the powerful wireless station here at least until next Thursday. Predictions as to the course the United States would pursue varied greatly in administration circles. Suggestions that the United States might propose to re-establish order and conduct an election as was done in Cuba were advanced in many quarters. That the United States may be required to back up measures and policies is being taken into consideration by administration

officials, and while there is no comment to indicate the trend of affairs, there is unmistakable evidence that high officials are preparing for any eventuality.

### HUERTA SAYS HE WILL NOT ACCEPT IF ELECTED

By Associated Press.

Washington, D. C., October 24.—Secretary Bryan today gave out a dispatch received from Charge d'Affairs O'Shaughnessy describing General Huerta's conference with the diplomatic corps yesterday, in which Huerta gave assurance that even if his friends would vote for him for president, the election would be null and void; that he would accept under no circumstances and that he wished the American government, as well as other foreign governments, to be assured of his good faith.

### MEXICANS INSINUATE EUROPE IS WITH THEM

By Associated Press.

Mexico City, October 24.—The controversy between the United States and Great Britain appears to have convinced Mexicans that European nations generally are coming into line with England in an opposition to the United States. Under the headline, "Entire Europe Is On the Side of Mexico," the El Independiente says in part: "In London everybody is taking note of the possibility of Anglo-American complications. It is known absolutely that three Chancelleries are working in perfect accord; those of London, Paris and Berlin. Back of them are great European alliances and the Anglo-Japanese alliance. It would be neither diplomatic nor prudent to defy these great nations."

### DIAZ STEPS GINGERLY

By Associated Press.

Mexico City, Mexico, October 24.—There is no intimation on the part of the government to molest General Diaz, according to Quorido Mohens, Minister of Foreign Affairs. He said today that General Diaz was at lib-

erty to come to the Capital when he chose.

By Associated Press.

Mexico City, Mexico, October 24.—Whether General Felix Diaz will come at once to the Federal Capital or remain in Vera Cruz until after the presidential election appeared to be a matter of doubt in the minds of his most prominent adherents. Josie Louis Requena, candidate for the vice presidency on Diaz's ticket, expressed the belief that his leader was likely to come here today or tomorrow.

### AFTER PROTEST VESSEL SAILS

By Associated Press.

Vera Cruz, Mexico, October 24.—After protests by the American consul against the delay of the Ward steamer, Morro Castle, by order of the authorities here, the vessel was formally cleared this morning for Havana and New York. Mrs. Lind, wife of President Wilson's personal representative, is on board.

### TRIENNIAL U. C. T. U. MEETING IN BROOKLYN

By Associated Press.

New York, October 24.—Mayor Kline was not applauded when in an address recommending the delegates of the World Woman's Christian Temperance Union in New York city today, he suggested that the solution of the liquor problem was not in absolute prohibition, but in a gradual process of education. Prolonged hand-clapping greeted his remark, "I understand some of you believe in total abstinence."

By Associated Press.

New York, October 24.—The Triennial convention of the Universal Christian Temperance union opened in the Academy of Music at Brooklyn today, with nearly 1000 delegates representing nearly every state in the Union and nearly 30 from foreign countries in attendance. The women were welcomed by Mayor Adolph Kline.

### FLOOD RESCUERS RECEIVE MEDALS

By Associated Press.

Governor Cox today presented the medals of honor for rescue work during the time of the flood last spring to J. A. Bell, of Dayton and T. E. Green of Columbus, telephone men, who were prominent in the rescue work. These medals are valued at \$50 each and were authorized by the legislature.

### WAS NEVER SICK NOW DEAD AT 105

By Associated Press.

Conneaut, Ohio, October 24.—Mrs. Dorcas Jones, 105 April 21st last, said to be the oldest woman in Ohio, died suddenly here last night. She had never had a day of sickness.

### JAILS FILLED WITH STRIKERS EARLY TODAY

By Associated Press.

Calumet, Mich., October 24.—189 arrests of striking copper miners were made today by the militia in the Copper City Allouez Mohonk district. The prisoners who were charged with the violation of the injunction against picketing were taken to Houghton on special cars guarded by troops. The arrest followed the issuance by Judge O'Brien of an order to Sheriff Cruse and his deputies to enforce the injunction and that he should employ what power and assistance might be necessary to bring before the court any persons found violating the injunction. The court's order was prompted by the general lawlessness of yesterday. There are 250 prisoners in the custody of the sheriff of Houghton county.

### KENTUCKY ROAD DAY

By Associated Press.

Lexington, Ky., October 24.—Thousands of men and hundreds of women led by Governor McCreary, 77, today donned their working clothes and took part in the Good Roads day of the state. Schools generally were closed.

### RESCUERS PERISH IN SEARCHING FOR MEN

By Associated Press.

Dawson, New Mexico, October 24.—Two of the helmeted rescue gang in Stag Canon Mine No. 2 were lost in the workings early today, and believed to be dead. Two others who accompanied them were brought out

barely alive.

The first government rescue crew arrived here today. The crew was equipped with helmets and went into the mine in search for the rescuers who were believed to have been overcome with gases. The probable death list is now believed to be 263.

### BOLD ROBBERS MAKE BIG HAUL

By Associated Press.

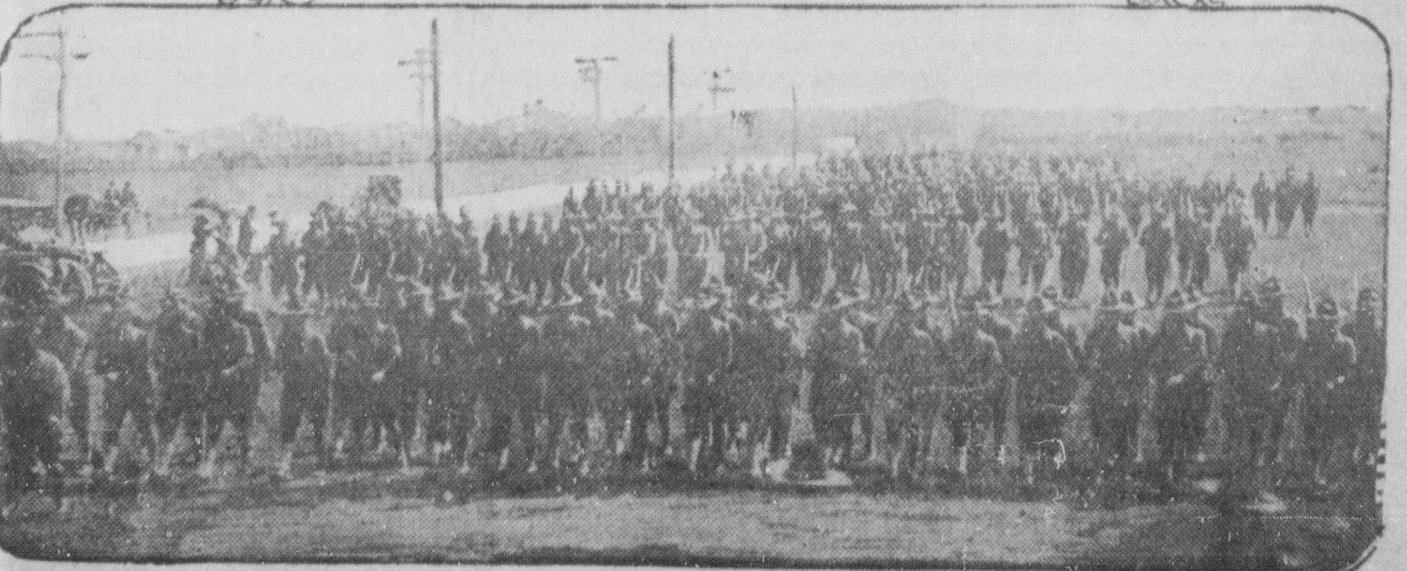

Chicago Junction, Ohio, October 24.—Robbers early today blew open the safe of the postoffice at Attica, O., seven miles west of here and escaped with loot estimated at \$15,000. The explosion which rocked the town and awakened the entire population, demolished the two-story building which sheltered the postoffice, but did not prevent the robbers from getting away with their loot.

### GONGWER CLAIMS HE THREW OUT 40,000 "TAINTED" SIGNERS

By Associated Press.

Columbus, Ohio, October 24.—Charles S. Gongwer, Secretary of the Ohio Equity Association, testified that he had thrown out 40,000 names of signers to petitions on the Warren-Kilpatrick Law referendum before filing the balance with the Secretary of State, because they were tainted with fraud. In the hearing of the Equity Association suit in the Supreme court today, Secretary of State Graves also testified.

Few people realize just how much concerned the authorities at Washington are over the unsettled conditions in Mexico. Intervention by American troops is likely to occur at any time, and large bodies of troops and detachments of artillery are stationed at points along the border. The accompanying photos were snapped a few days ago. The top one shows the First provisional regiment drilling at Galveston. In the middle one appears a camp of engineers at Texas City. In the lower one is seen a brigade review at Galveston.

## MONTEREY IS CUT OFF FROM OUTSIDE WORLD

By Associated Press.

Mexico City, Mexico, October 24.—Wire communications with the beleaguered City of Monterey ceased at 11 o'clock yesterday morning, according to announcements here today. After that hour the fighting which began Wednesday night was raging fiercely in the outskirts of the city. The main rebel force occupied the National railroad buildings about a mile from the center of the city. They had a number of cannon and at least

one machine gun. Rebel reinforcements at Lampazos, 100 miles north of Monterey were unable to proceed to Monterey owing to the destruction of bridges and lack of fuel. A body of 1200 rebels has moved east from Torreon and is harassing the Federal Commander Tracy Aubert, at Hipolito who has concentrated his forces there. A trainload of ammunition for the Federal troops is in danger of falling into the hands of Rebels midway between Saltillo and San Luis Potosi.

## OIL COMPANIES FOMENT STRIFE

Responsible For the Series of Revolutions in Mexico.

### HENRY LANE WILSON TALKS

British Interests, Which Controlled the Oil Situation in the Southern Republic Under Diaz, Ousted by a Great American Concern That Backed Madero and Later Began Another Intrigue.

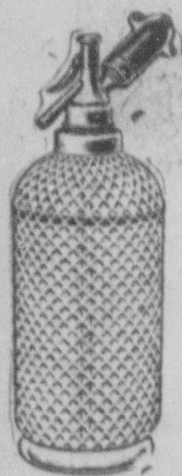

Chicago, Oct. 24.—The continuous performance of revolutions in Mexico for more than a decade has been the result of a bitter fight between British and American oil interests for control of the rich fields of the southern republic, according to a story told by Henry Lane Wilson, the former Mexican ambassador. Mr. Wilson is paying a visit to a son, who is attending the University of Chicago.

"Let me say by way of preface," said Mr. Wilson, "that this story is one the accuracy of which I do not vouch for personally. It is current talk in Mexico and is to some extent to be found in the testimony which was taken before the Smith senatorial committee investigating the Mexican situation, and which has not so far been made public.

"At the time of the General Porfirio Diaz regime an English oil company controlled the oil situation in Mexico. This company had all the concessions and contracts with the railroads and also with the other oil consumers controlled by the government.

"The benefits which it obtained for this control were viewed with disfavor by other large oil concerns. Two of these were 'outsiders,' one with worldwide business ramifications (and I guess you know which that is), and the other a subsidiary of this larger company, contributed with influence

Vincent Astor, who was asked several days ago to accept the chairmanship of the finance committee of the Mitchell leagues, said that he guessed he could and has begun at the leagues' headquarters. It was said at headquarters that Mr. Astor would not only attend to the raising of funds and the disbursement of money, but would as well take an active part in directing Mr. Mitchell's campaign along with the other political generals who are doing their best to get that candidate elected.

## MEASURE POWER IN SUPREME COURT

### GRAVES SUMMONED BEFORE HIGH COURT

Will Testify at Hearing of the Referendum Case.

Columbus, O., Oct. 24. — The Ohio supreme court, on the precept of the relator, Secretary Charles Gongwer of the Equity association, subpoenaed Secretary of State Graves to testify at the hearing of the charges that the secretary acted fraudulently in throwing out petitions for referendum of the Warnes and Kilpatrick laws. The hearing opened before noon today. Subpenas also were served upon five notaries public at Cleveland, whom Mr. Gongwer asked Secretary Graves to summon at investigation into referendum frauds but who were not summoned.

In addition to issuing such subpoenas as W. H. Miller, attorney for the Equity association, desired, the court instructed him to have in court such other witnesses as would appear without subpoena.

The issuance of subpoenas was declared by Mr. Miller that the court will go outside the record of the investigation to admit proof of fraud on the part of the official who conducted the investigation. Chief Justice Nichols informed Attorney General Hogan and Mr. Miller that the court would hear the Equity people on two points, namely: first, that the court consider the entire stenographic record of the investigation and the detailed analysis of it by the Equity's lawyers; and secondly, that the secretary of state did not and could not hold a full and fair investigation.

## GLADDEN SAYS CHURCH MUST RETURN TO PEOPLE

### DR. GLADDEN'S VIEWS

Declares Church Must Get Back to Plain People or Quit.

Kansas City, Oct. 24. — Dr. Washington Gladden of Columbus was one of the principal speakers at the session of the national council of the Congregational churches. "The church must get back to the needs of the plain people or quit," declared Dr. Gladden, who is a former moderator. "It is imperative that the church awaken to a realization of its mission," said Dr. Gladden. "The church is working on the theory that its duty is to get people out of this world into heaven. Rather it should be engaged in christianizing the art, industry, school, business—all the activities of men. It has given too much encouragement to individualism and not enough to brotherhood. The motto it has taught is 'Look out for yourself.' It has advised its people to 'get saved' rather than to save others, and thereby save themselves."

## NEW B. & O. BRIDGE BEARS DISTINCTION

The longest and heaviest single leaf bascule bridge in the world has recently been built for the Baltimore and Ohio railroad across the Calumet river in Chicago. The bridge is 235 feet long and weighs over 4,000,000 pounds. It is counterbalanced by a counterweight consisting of a huge concrete block which contains 1,100 cubic yards of concrete.

The bridge is so designed that it is perfectly balanced in any position and the machinery operating it has only to overcome the friction in the bearings in which the structure rests. Electric power is used in the operation of the bridge, the control being vested in two electric motors which are manipulated from an operator's house. The duties of a bridge tender are very similar to those of a street car motorman. The net weight of the steelwork, or superstructure, is estimated to be 3,000,000 pounds. The bridge is known as a Strauss Trunnion Bascule, designed by the Strauss Bascule Bridge Company, Chicago, and erected by the Pennsylvania Steel Company.

## Why 7000 Druggist

Guarantee and Recommend Vinol.

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic restorative and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter & McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. — Blackmer & Tanquary, Druggists, Washington C. ## THAW SURPRISED AT SPEED SHOWN

TO BE THRESHED OUT IN FEDERAL COURT

Thaw Case Will Be Transferred On Habeas Corpus Writ.

Concord, N. H., Oct. 24.—While apparently not surprised that an indictment had been found against him in New York, Harry K. Thaw was certainly overawed by the rapidity with which the evidence was presented by Jerome and the jury's verdict returned. Within an hour after the indictment was found Thaw was advised thereof by telephone from New York.

It now seems probable that the finding of the indictment of the grand jury will lead to the signing of the extradition papers by Governor Felker and the transfer of the case to the federal court on the writ of habeas corpus granted by Judge Edgar Aldrich of the United States district court, action on which was continued after the hearing at the September term at Littleton.

Counsel for the fugitive will ask for time to meet the issues presented by the indictment, and Governor Felker stated that he should grant the request. He said that he considered the present case based on the proceedings in Dutchess county closed, and that the finding of an indictment in New York county opened a new proceeding, in which the defense would be given all the time necessary to meet the new issues raised.

## LIND SHIELDS GENERAL DIAZ

Mexican General Taken to the United States Consulate.

Vera Cruz, Oct. 24. — Much excitement was caused in police and military circles when it was learned that John Lind and United States Consul Canada called at the house where Felix Diaz has been staying and accompanied Diaz to the United States consulate, where Diaz is now staying.

Lind, who saw his wife aboard the steamship Morro Castle for New York, is highly indignant over the holding up of the vessel. He at once dispatched a vigorous message of protest to Secretary of State Bryan and another one to Senor Moseno, Mexican minister of foreign affairs. Captain Huff has cabled to the New York offices of the Ward line for instructions. Eight Mexican congressmen, fleeing for their lives, are on board the vessel.

## A Masculine Fallacy

The New York World says: "One of life's neatest little ironies is the fact that the first arrest under Wisconsin's anti-gossip law was not a woman at a sewing circle, but a man."

That the author of this squib was a man goes without saying!

One of the deeply rooted fallacies in the masculine mind is that a man doesn't like gossip. He loves it. Not vicious, hurtful gossip. No one with the requisites of a true man, or woman either, wants to hear that; but just the spicy, personal news that is the sauce for the conversational pudding.

If you don't believe this is true casually mention that you heard an interesting piece of news and see how much peace you'll have until he shares your knowledge. Of course, he'll assume an air of only wanting to be polite and interested, but the truth is that he thoroughly enjoys a little gossip.

That is the average man! There are always a few superior ones who shoulder all the evils of gossip on the "sewing circle."

Luke McLuke says: "If newspapers were compelled to print scandle in the smallest type made, ninety per cent of the people would be wearing glasses." And yet it is current belief that newspapers are mostly read by men.

## A Wonderful Woman

A splendid representation of Ohio's women of brains and culture is now congregated in Chillicothe for the State Federation of Women's Clubs, but, brilliant and typical as are many scheduled on the convention's program, the bright and particular star is Jane Adams.

There is no more shining example of the triumph of simple goodness than Jane Adams, of Hull House. There is no woman in the United States who has made her influence more widely felt.

The world knows that she is absolutely sincere; that she both preaches and practices a gospel of cheer and love.

Not only is Jane Adams the idol of Hull House; she is revered and honored wherever settlement work has sprung out of her efforts, wherever moral and civic reforms have felt the stimulus of her influence.

She is a doer not a theorizer, but beyond all else a big hearted, lovable woman, whose self-interest has been neglected in service to humanity.

Today Miss Adams is one of the foremost advocates of the Woman's Suffrage Association, and her ardent embracing of this cause is influencing many who are brought within reach of her persuasion.

Miss Adams has no liking for militant methods, but she is a firm believer that the ballot in the hands of women will accomplish much in civic and moral movements.

# Women Are Not Guilty of Circumlocution

They  
Are  
Direct In  
Their  
Demands

Know  
Their  
Own  
Minds  
Well

By IDA M. TARBELL, Author

ARE women guilty of circumlocution? Well, if they are—on occasion—so—on occasion—are MEN.

I never thought about the franchise that way. I never thought that women were LESS DIRECT THAN MEN, and I'd have to line up men and women together and take a vote on it and have it established that women lacked directness before I could discuss the vote as a corrective.

I've always found women quite as STRAIGHT OUT AS MEN. Take the wives of workmen, who have the husbands' pay envelopes—most of them do—every Saturday night, and expend their contents for the household.

THOSE WOMEN ARE AS STRAIGHTOUT AND DOWNRIGHT AS MEN. I'VE SELDOM FOUND ONE WHO DIDN'T KNOW HER OWN MIND OR WAS AFRAID TO SPEAK IT.

Perhaps some women aren't admitted to partnership by their husbands. Some aren't prudent enough to be allowed free access to the income. But I find most of the women of whom I know are on an equal footing with their husbands, and they are JUST AS FAIR AND ABOVEBOARD AS THEIR HUSBANDS. Circumlocution isn't a feminine quality; it's a HUMAN QUALITY. We're all given to it, more or less, men as well as women. No; it never occurred to me that women needed the ballot for STRAIGHTFORWARDNESS or that it would make any difference in that part of their natures if they had it.

## Poetry For Today

### GRIGGSBY'S STATION.

Papa's got his patent right, and's rich as all creation;  
But where's the peace and comfort that we all had before?  
Le's go a-visitin' back to Griggsby's Station—  
Back where we ust to be so happy and so pore!

The likes of us a-livin' here! It's jest a mortal pity  
To see us in this great big house, with carpets on the stairs.  
And the pump right in the kitchen! And the city! city! city  
And nothin' but the city all around us ever'wheres.

Climb clean above the roof and look from the steeple,  
And never see a robin, nor a beech or ellum tree!  
And right here in ear-shot of at least a thousand people,  
And none that neighbors with us, or we want to go to see!

Le's go a visitin' back to Griggsby's Station—

Back where the latch-string's a-hangin' from the door,  
And ever' neighbor 'round the place, is dear as a relation—  
Back where we ust to be so nappy and so pore!

—James Whitcomb Riley.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

Department of Agriculture experts have issued a circular intended to set the crow right before the public. The Department was responsible some years ago for a statement which seemed to reflect on the crow as an enemy of the farmer. The latest statement takes it all back and declares the bird is really of more help than hindrance to the farmers' crops.

The government catch of seal, foxes and other Alaskan furs is more than twice what the territory cost the United States, or some \$15,000,000. These furs are sold through the St. Louis fur market, the largest primary fur market in the world. At one time, the government furs were sent abroad. Today three quarters of all the furs of the North American continent are sold through St. Louis. The seal islands of Alaska are the most important in the world.

The idea that the public domain in the United States is about all taken up by settlers and railroads is disproved by the figures given out by the National Conservation Congress. The public lands are now more than 800,000,000 acres, valued at \$10,000,000,000, practically all of which, excepting Alaska, is situated in mountain states. A fight is now on between those states and the federal government, the states desiring to have the lands turned over to them for disposal and that is precisely what the conservationists do not want to have done.

Mrs. Gene Stratton-Porter's "Ladies," only six weeks on the market, has sold 275,000 copies.

Martha Holley, whose "Samantha" stories caught the American public some years ago, is to come back soon with another book about the shrewd heroine of her earlier volumes.

The term "dry farming" is misleading. Just as much moisture is required to mature a crop of wheat in dry farming districts as in places where the rainfall is greater, one only difference being that it takes two seasons to make a dry crop instead of one. The Idaho dry farmer, who will market 1,000,000 bushels this fall, raises his crop of wheat, then summer fallows the land and lets it dry, absorbing all the moisture possible. He invariably reaps a normal harvest. The dry farmer simply works his land alternately, farming a portion one year while another portion gathers moisture while idle.

Some time ago the Chicago, Rock Island and Pacific railroad sent out a notice to all its employees asking them to use an additional inch of each lead pencil before it was thrown away, and the company added that this would make a saving of \$4000 a year to it.

(John E. M. Kerr.)

March 14, 1872.

At a meeting of the School Examiners certificates were granted to the following named persons for the time specified: Mr. H. O. Hannawalt, W. H. Stokesbury, J. P. A. Dickey, 24 months; Mr. Joseph Hidy, J. I. Roberts, C. M. Hare, I. E. Hare, Daniel Tuper, Thomas Amerman, Nide Leach, Misses Belle Chestnut, Medora Bush, May Creamer, Nellie Harper, 12 months; John Fisher, S. A. Ireland, 18 months; Misses Wella Chaffin, Elby Hidy, Clara Noble, Maggie Fulton, Mary Harper, Rachel Mark, 6 months.

Died in this town on the 7th after a painful illness of several days, Mr. Peter Miser, aged 72 years.

Mr. M. was born near Staunton, Va., and moved with his parents to this state when a boy. He has resided in this county since 1858, living with his son, Mr. John Miser, of this place.

Buffalo Bill, the original, genuine "Bill," who has lifted more hair, wiped out more red skins, killed more grizzlies and raised more particular mischief generally upon the plains than any other man, passed through this town on his way East. He was attired in his usual buckskin suit and when the train stopped amused himself by throwing his railroad ticket into the air and shooting it full of holes with his revolver. He eats his beef entirely raw and cuts his bread with his bowie knife.

## Hair Doesn't Die It Has to Be Killed

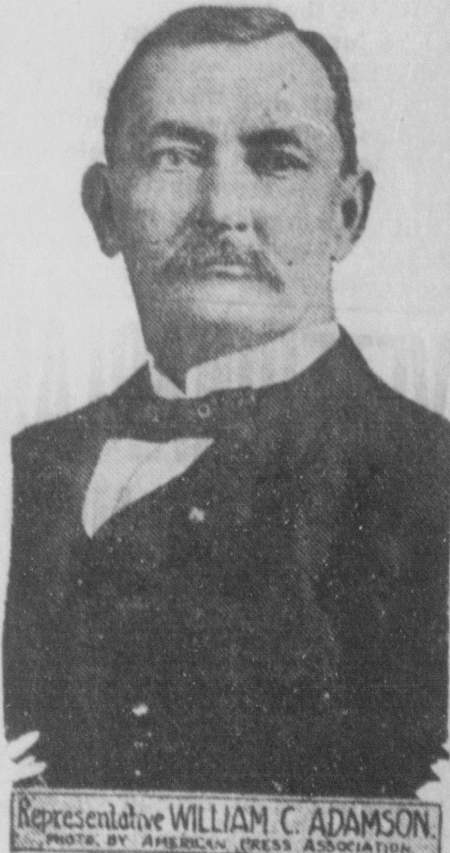

Hair often continues to live and grow long after the death of the body. But it is often killed through neglect or misuse. Almost always the woman or man whose hair is falling out, or is stringy, lifeless and dull-looking, is entirely to blame because of not giving it the proper care. It is easy to take care of the hair—easy to make it more beautiful. Use Harmony Hair Beautifier, to make it glossy, soft and silky, and Harmony Shampoo to keep hair and scalp thoroughly clean.

Harmony Hair Beautifier, delightfully perfumed with true rose, is very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo is most convenient to use, giving an instantaneous rich, foaming lather that immediately penetrates to every part of the hair and scalp, insuring a quick and thorough cleansing. It is washed off just as quickly, the entire operation taking only a few moments. Contains nothing that can harm the hair, and leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.—Blackmer & Tanquary, Washington C. ## LEADS FIGHT AGAINST FREE USE OF CANAL BY AMERICAN SHIPS.

Representative WILLIAM C. ADAMSON.  
PHOTO BY AMERICAN PRESS ASSOCIATION.

Washington, October 24.—Representative William C. Adamson of Georgia, who was chairman of the house committee on interstate and foreign commerce in the last congress and will be re-elected to that position when the house assembles for the regular session in December, has announced that he would introduce a resolution to suspend the provision of the Panama canal act permitting coastwise vessels of American register to pass through the canal without payment of tolls.

This announcement is the first positive indication of President Wilson's attitude toward the free tolls provision. Although Mr. Adamson did not say so, it is taken for granted that he will present his resolution at the instance of Mr. Wilson, with whom he has had several conferences lately.

# JURY DISAGREES IN THE ALLEN-SMITH DAMAGE CASE

After deliberating on the evidence in the \$20,000 damage case of Frank M. Allen against T. T. Smith, of Leesburg, from 10:40 o'clock Thursday morning until noon Friday, the jury was called in by Judge Cyrus Newby and all of the jurors agreed that there was no hope of reaching an agreement, whereupon the jury was dismissed from further consideration of the case.

The jury was kept in the jury room until ten o'clock Thursday night, when they were dismissed until nine o'clock Friday morning, but the disagreement was hopeless and the end came accordingly.

In his charge to the jury Thursday Judge Newby stated that a unanimous vote would be necessary to con-

stitute a legal verdict, as the action was filed before the two-thirds majority verdict in civil cases, went into effect.

This is the second time the case has been tried in the Common Pleas court of this county, and owing to its character has been watched with considerable interest.

Mr. Allen brought the suit as a result of serious injuries sustained when he was thrown from his rig, when his horse took fright at the Smith car on the Leesburg pike between Staunton and this city.

Attorneys Logan and Sanderson represented the plaintiff, and Attorneys Jones, Post and Reid for the defendant.

Mr. Allen will probably call for a new trial of the case.

MRS. SULZER "OUT" AND MRS. GLYNN "AT HOME" IN "PEOPLE'S HOUSE."

These are "the women in the case" directly affected by the finding of William Sulzer guilty on impeachment charges and the automatic elevation of Lieutenant Governor Martin H. Glynn to the governorship of New York. Mrs. Sulzer is out of the "People's House," as Sulzer christened the executive mansion at the state capital, Albany, N. Y., and Mrs. Glynn is in. Like their husbands, they were once firm friends, but now the situation is different. Mrs. Sulzer was not brought into her husband's trial, but her name was on all lips in connection with the ousted governor's speculation in stocks.

# VETERINARIAN TALKS ON THE HOG CHOLERA FIGHT

Dr. D. M. Swinehart States That No Free Serum Treatment Is to Be Administered in Fayette County Before Next Spring.

DR. PAUL FISCHER VISITS NORTHERN FAYETTE THIS WEEK

Preliminary Work Will be Finished in Madison Township Within Next Two Weeks and Paint Township or Marion Will Come Next—Veterinarian is Confident Work Will be a Success.

and among other things said:

"Farmers who are awaiting the free treatment this fall should not further postpone the treatment of their swine if they intend to do so before next spring, as the delay may mean heavy loss to them, and the free serum will not be administered until next spring."

"Yes, I am positive the disease can be wiped out of Fayette county under the plans adopted, as it has been demonstrated repeatedly that upon farms where we have administered the treatment no cholera exists," he said in answer to the query of "do you believe the disease can be eradicated from this county?"

Dr. Swinehart, who is one of the leading assistants in the work of fighting hog cholera, returned to Columbus on the morning train.

A communication from Dr. Paul Fischer states that he was in northern Fayette county one day this week and that the work under Drs. Salt and Edgington in progressing very nicely.

The two doctors are enumerating the swine in Madison township, or making the preliminary survey of the situation, and within the next two weeks will be ready to commence upon a new township, probably Paint.

A supply of the special Bulletin No. 10, treating on eradication of the swine plague in Fayette county, has been received at The Herald Office, for free distribution, and a copy may be secured by calling at the Herald office.

# CONSPIRACY THE CHARGE

Indictment Returned Against Thaw and Others in New York County.

New York, Oct. 24.—It took a New York county grand jury less than two hours to find an indictment against Harry K. Thaw. He, with four others who are alleged to have aided his escape from the Matteawan asylum, is charged with conspiracy in violation of section 580 of the penal code. The men implicated are Richard Butler, a former assemblyman; Eugene Duffy, Michael O'Keefe and Roger Thompson. All four are said to have participated in the escape of Thaw on Aug. 17 last. Governor Glynn will be asked to issue a warrant of extradition for Thaw's return to this jurisdiction.

# NATION PROSPEROUS

President Issues His First Thanksgiving Proclamation.

Washington, Oct. 24.—In his proclamation designating Thursday, Nov. 27 as Thanksgiving day, President Wilson said: "The season is at hand in which it has been our long respected custom as a people to turn in praise and thanksgiving to Almighty God for his manifold mercies and blessings to us as a nation. The year that has just passed has been marked in a peculiar degree by manifestation of his gracious and beneficent providence. We have had not only peace throughout our own borders and with the nations of the world, but that peace has been brightened by constantly multiplying evidences of genuine friendship. The nation not only has been prosperous, but has proved its capacity to take

calm counsel amidst the rapid movement of affairs and deal with its own life in a spirit of candor, righteousness and comity. I invite the people throughout the land to cease from their wonted occupations on Thanksgiving day and in their several homes and places of worship render thanks to Almighty God."

Ohio Cadet Dropped.

Washington, Oct. 24.—President Wilson vetoed the bill reinstating Adolph Unger of Tiffin, O., as a cadet at West Point, expressing the opinion that Unger had not had the preparation to enable him to pass the rigid course at the military academy. Unger was one of 20 cadets dropped from West Point for failing in an examination.

## In Social Circles

Many times has the Fitzgerald home, "Brookside," one of Washington's most beautiful homes, extended its hospitalities, but never at a more thoroughly pleasurable affair than the Kensington of Thursday with Mrs. Harry Fitzgerald, Mrs. John A. Worrell and Miss Fannie Persinger hostesses.

Sixty women responded to the invitations and the most cordial receptions from the hostesses, the attractive settings and the congeniality of the guests combined to make the afternoon one of rare sociability. A wealth of palms, ferns and pot-

ted plants were used in decoration throughout the rooms, and scarlet salvia added a brilliant note of color.

In the dining rooms the scarlet decorations were particularly effective. The buffet was banked in scarlet geraniums and scarlet salvia in a cut glass vase graced the center of the polished table, with its dainty lace mats.

A tempting collation was served. Assisting in the afternoon's hospitalities were Mrs. Jess Persinger and Mrs. Charles Allen.

# ABANDONING HOPE OF RESCUING MEN BURIED IN MINES

## FEAR NONE WILL BE FOUND ALIVE

Two Hundred and Eighty Men  
Are Still in the Mine.

### GAS PENETRATING EVERY PART

Rescuers, Equipped With Oxygen Helmets, Hampered in Their Efforts to Reach the Entombed Miners by Fallen Rock and Coal—Score of Victims Taken Out Alive, but Terribly Injured.

Wait for hours while fallen rock and coal are removed. No prediction is made as to how long it will take to penetrate the innermost recesses of the mine.

Long lines of coffins are awaiting the dead, but for the present little effort is being made to bring out bodies, all efforts being concentrated on the supreme effort to reach any survivors who may still be imprisoned in the smoking pit.

Henry McShaw, son of Mrs. E. P. McShaw of New York city, widow of a former heavy stockholder in the mine, is among the known dead. McShaw, who was but 19 years old, had come to the mine in which his father's estate still held an interest in order to learn mining from practical experience.

J. C. Roberts, chief of the United States mine rescue bureau in this district, is in charge of the rescue work. Mr. Roberts said it was impossible to tell what caused the explosion, but that it was of such violence as to cause him to lose hope for the rescue of any more victims.

## SURETY COMPANY SOUNDING BANKERS

Systematic Effort to Get Expressions of Opinion On Currency Bill.

New York, Oct. 24.—The first systematic effort to get an expression of opinion from every national bank, state bank and trust company in the United States as to the currency measure is being made by the National Surety company. More than 25,000 circular letters with a list of questions relating to the legislation backed by President Wilson have been sent out to bankers. From the replies that have been received in the first few days it is apparent that the sentiment of the banking community is strongly averse to the bill.

### Railroader Electrocuted.

Toledo, O., Oct. 24.—Ernest Krapp, 23, of Lima, O., met instant death when he came into contact with a live wire at Waterville, near here. Krapp was employed as the third man on a Toledo-Columbus freight car.

### A UNIQUE CUSTOM

Some years ago the Vinol fraternity, of which our Druggists, Blackmer & Tanquary are members, originated the idea of having a National display week of Vinol and companion products, semi-annually.

This Vinol fraternity must be quite an extensive organization, for returned travellers tell of the wonderful window displays of Vinol which they have noticed in their travels through Canada, Cuba and as far away as South America.

Blackmer & Tanquary are now preparing for Vinol week, which begins October 27th, this year. Their attractive window arrangements, and store decoration, show the same enthusiasm which they have for years put behind this meritorious Cod-Liver and Iron preparation.

Later in the season, they intend to give away a new Vinol Cook Book to their customers. Every woman interested in good cooking receipts should call and get one.

## THE IDEA! ACCUSIN' US OF RACE SUICIDE!

## TRACK REMOVED FROM VILLAGE

George W. Baker has had a force of men engaged in removing the rails of his traction line, on Church street in South Charleston, owing to the fact that as long as the rails are in the street and the franchise is held, he must make certain repairs of the street. As the rails were almost buried in the street they were becoming badly damaged also.

Since Mr. Baker purchased the line the track on the street in question has not been used, as the cars come into the town from the north and the traction station is located well up on the north end of the main street, close to where the road turns to go east to reach Church street.

There was nearly a half mile of the road, which extended to within a short distance of the Pennsylvania railroad tracks.

In the move some see the abandonment of further efforts to extend the road to this city. However, if the road had been extended to this city it would have been necessary to rebuild the track, it is claimed.

## JAMESTOWN AUTOS ON ADVERTISING RUN

A large party of Jamestown automobilists planned to visit Octa, Edgefield, Milledgeville and Jeffersonville today, advertising the annual hallowe'en carnival, which will occupy three days and nights of the coming week.

Last year a very successful carnival was held, and its success was attributed to the automobile party's advertising, and a similar program has been mapped out this year.

The inclement weather will probably force the party to forgo their little trip today, however.

## Gilliland Again Takes Up the Pen

Strickland W. Gilliland has assumed an editorial position on the staff of the Indianapolis Star, his part of the work being comment, verse and humor. Just 21 years ago he accepted his first work with a daily paper at Richmond, Ind. His new position in no way interferes with his Chautauqua and Lyceum work but is rather an adjunct to it.

## IS RECOVERING

C. H. Vincent, the B. & O. brakeman who fell from the high B. & O. trestle, south of Columbus Wednesday night, and was at first believed to have been dangerously injured, is recovering rapidly.

One report is that he stepped from the bridge in the darkness.

I am in the race for President of Council to win, and will appreciate your support in the election.

It will be impossible for me to see all personally, but I desire all to know, through this announcement, that if elected I shall give sufficiently of my time to perform the duties of the office, and shall make use of every means within my power to the end that the best interests of the people shall be conserved.

I wish to announce to the voters of Washington C. H. and Union township that I am a candidate for Township Trustee, subject to the decision of the voters of November 4. Your support will be appreciated and if elected I will try to the best of my ability to give an economical, careful and satisfactory administration.

## WOMAN FINED \$1750

New York, Oct. 24.—Mrs. Frank B. Wiborg of Cincinnati was fined \$1,750 in the United States district court for having failed to declare dutiable goods on her arrival here on the Mauritania, Sept. 5. Henry W. Taft, brother of the president, and Frank A. Munsey were in court to testify as character witnesses in her behalf.

Henry A. Johnston, a business man of L'Anse, Mich., writes: "For years 'Foley's Honey and Tar Compound' for coughs and colds has been our family medicine. We give it to our children, who like it on account of its pleasant taste. It is a safe cure for coughs and colds." It contains no opiates. Blackmer & Tanquary.

BACKACHE

KIDNEYS

Backache, rheumatism, and all kidney and bladder disorders are caused from weak inactive kidneys, which fail to filter out the poisons, and keep the blood pure. The only way to positively and permanently cure such troubles is to remove the cause. The reason why Foley Kidney Pills are the best medicine for kidney and bladder troubles is because they are made wholly of those healing, strengthening and restorative ingredients that nature needs to build up and renew these important and vital organs. ## DISCUSS FUTURE OF THE FILIPINO

Delegates to Mohonk Conference  
Express Their Views.

### TEXT, ISLANDS' INDEPENDENCE

President Wilson's Treatment of the Problem Both Approved and Condemned, the Majority of the Speakers Being Opposed to the Granting of Immediate Freedom to the Natives of the Archipelago.

Mohonk Lake, N. Y., Oct. 24.—President Wilson's treatment of the Philippines problem was both approved and condemned at the Lake Mohonk conference of the Friends of the Indian and Other Dependent Peoples. The speakers who condemned were in the majority. The views expressed, however, varied from advocacy of perpetual American control to belief in immediate independence. The dominant opinion favored making the Filipinos independent, but not until a generation or more had been devoted to teaching them how to govern themselves.

The most radical address proposed resigning the care of the islands to an international council and, if the great powers refused to accept this trust, turning the Philippines over to Japan.

The most urgent advocate of immediate independence was Dr. John R. McDill, associate professor of surgery in the University of Chicago, who recently resigned as professor of surgery in the University of the Philippines at Manila. He attacked the administration of Governor General Forbes. After Mr. Forbes' retirement President Wilson sent him a letter, commending his work.

Martin Egan, formerly editor of the Manila Times, said that he expected to see less rancor and bitterness in treatment of the Philippine question, because, through the results of the last election, the critic had become the actor.

"After the Democratic party has gone through a few years of Philippine government," he remarked, "it will find itself a little chastened and a little more in sympathy with what has been done there." He was glad that President Wilson had taken no radical step and that his order giving the natives a majority on the Philippine commission left a way open to withdrawal.

Arthur F. Odlin of Arcadia, Fla., for six years judge of the court of first instance in the Philippines, expressed the hope that no step toward inde-

pendence would be taken for at least 25 years.

Rev. W. F. Oldham, Methodist bishop of southern Asia, a missionary diocese including the Philippines, expressed admiration for some of the Filipino qualities, but also counseled delay.

### SHOOTS THE RAPIDS; SAVED FROM WHIRLPOOL

Niagara Falls, N. Y., Oct. 24.—Peter W. Langgard, who lives in Denmark, shot the Whirlpool rapids of Niagara in a motor boat to gratify moving picture promoters. His trip through the rapids was beautifully made. However, when Langgard reached the great whirlpool he was helpless, as his engine had become disabled in the wild waters of the gorge. This made him a prisoner for several hours on the bosom of the great maelstrom. Firemen from Niagara Falls, Ont., finally joined in the rescue effort, and he was helped ashore on the Canadian side of the river.

Noted Captains of Two Big Teams of Gridiron Rivals

Photos by American Press Association.

When the Harvard Johnnies and the Princeton Tigers meet on the gridiron this year the work of the rival captains will be closely watched. Storer of the Crimsons plays tackle, and Hobey Baker is the star of the Orange and Black back field. Both are acknowledged all-American timber, and both have met before on the football battlefield. Baker's strong point is his ability in running back punts, while Storer is noted for his work in getting down the field with the ends and nailing the runner.

## UNUSUAL SUIT FOR DAMAGES

Poisonous mosquitoes, which he alleged found a breeding place in the city sewerage plant of Xenia, and inflicted bites which caused the death of a child, is the basis of a suit just filed against the city of Xenia, in which \$10,000 damages is asked.

The case, which is of particular interest in this city, where mosquitoes were so bad the past three months, is told in a dispatch sent out from Xenia, which says:

"Claiming that infection, due to the bite of mosquitoes, which had their breeding place about the sewer farm near the O. S. & S. O. home, caused the death of little Mildred Dice, aged nine months, Joseph Dice as administrator of the estate of Mildred Dice, has filed suit against the city of Xenia for damages in the amount of \$10,000.

"The Dice home is located near the city sewer farm and close to Shawnee creek, into which stream, the petition alleges, the sewers empty. The petition states that the rocks in the bed of the shallow stream and the exposed portions of the bed, are covered with a deposit from the sewers and that sewerage forms a scum on the surface of the water. It is claimed that the stream is a breeding place for thousands of mosquitoes and that many of them made their way into the Dice home in spite of all efforts to keep them out.

"The petition says poisons injected into her system by the bite of the mosquitoes caused the baby's death, and forms the basis for the suit which is brought in behalf of her next of kin, her father and two brothers and four sisters.

## "Mary Stewart"

The beautiful and much loved Mary Stewart, Queen of Scotland, is one of the most unfortunate and sympathetic characters in history. Born in Scotland, educated at the court of Francis II of France, whom she married at fifteen, queen of France at sixteen, a widow at seventeen, beginning her reign as Scotland's Queen at eighteen, married to Darnley of the Royal Blood at nineteen—her life began amid turmoil and disaster.

Her husband, Lord Darnley, who after their marriage proved a vicious braggart and insanely jealous of Rizzio, Mary's favorite singer and secretary. One night as Rizzio sang to the Queen, Darnley and his band of night hawks waited at the foot of the narrow staircase for the singer. Down the staircase he comes full of youth and love. Darnley's hand shoots out of the shadow and Darnley's dagger finds its rest in Rizzio's heart.

Such martial dissensions, together with political factions and religious contentions, caused Scotland to rise in arms, and the Queen in jeopardy of life and without followers, accepts the offered hospitality of England's Queen, Elizabeth, who extends Mary an invitation to sojourn to Kenilworth Castle, in Warwickshire, until the broils of Scottish clans subside and Mary can return to her throne. With gratitude and haste, the Stuart repairs to Kenilworth, only to find herself trapped, a prisoner, by Elizabeth who really fears not only the Scottish Queen's beauty and power, but her legal birthrights to the English crown. Elizabeth, not daring to openly execute her royal sister, tries secretly to affect her assassination but in vain, owing to the loyalty of Mary's servitors.

A charge of treason is then brought against her by the English crown. She is found guilty and sentenced to the block. Pending the signing of the death warrant by Queen Elizabeth, attempts to rescue her are made, one by a gallant and loving Englishman, Sir Edward Mortimer; but these only resulted in failure of plans, frustrated attempts on Elizabeth's life, and deeper confinement and unhappiness for Mary. In a meeting between the two queens, effected after much planning, Elizabeth taunts Mary whose proud spirit rebels and bursts forth in denunciation. After the disastrous interview and at the urging of Lord Burleigh, the Lord Treasurer, Elizabeth signs the death warrant and the martyr queen is led to the public execution. The Earl of Leicester has been secretly in love with Mary but, fearing in his safety, deserts her when the crisis comes.

There is a white haired old man who follows her, with breaking heart to the scaffold, and a gray haired old woman bowed down by weeping—these, her nurse and her physician, the remnants of her faithful followers. She mounts the scaffold, the charges of treason are read to the curious hungry crowd watching. She forgives the headsman, offers a prayer for too trusting soul, and bares her white neck to the axe. The film fades on Leicester bowed with grief and remorse on the stairs which Mary had just ascended on her way to the scaffold.
